

NEW CAREER OPPORTUNITY

Build your career with Kraken Robotics.
Make a difference to others.

If innovation drives you, and you want a career that makes a difference to the world, helping humanity overcome the challenges in our oceans – safely, efficiently, and sustainably – **then come join us at Kraken Robotics.**

www.krakenrobotics.com

Electronics Technologist

Based at Kraken Robotics Services (Newfoundland, Canada)
Full-Time – Permanent | Job Reference: KRSI-2023-05

ROLES AND RESPONSIBILITIES

- Cable harness assembly and verification
- Assembly of electronic chassis
- Installation and wiring of electrical bulkheads
- Complete incoming checks on sensor and electronic components
- Create build logs, build procedures and other required documentation
- Support testing of various products within production
- Mechanical assembly
- Soldering

QUALIFICATIONS AND EXPERIENCE

- Diploma in Engineering Technology, or other Technical Diploma with experience.
- Electronics assembly and troubleshooting experience
- Experience with assembling and testing of wiring harnesses
- Experience in the installation and connection methods of electrical equipment
- Demonstrated technical skills along with a proven track record for success.
- Experience with quality assurance and quality control procedures (QA & QC)
- Experience in use and maintenance of electronic test equipment
- Experience in the use of inventory systems
- Strong written and oral communications skills (technical reporting and engineering documentation)
- Strong analytical and problem-solving skills
- Strong troubleshooting skills

- Must be able to work independently, as well as effectively within a team environment
- High degree of organization, with the ability to prioritize tasks
- Appreciation of other engineering disciplines (mechanical and software)
- Experience with any of the following would be considered an asset:
 - Experience installing and operating electronics equipment in an ocean environment
 - Experience with sonar systems and acoustic signal processing
 - Experience testing and troubleshooting software systems
 - Experience in a shop environment, specifically with hand tools
 - Experience in through hole and surface mount soldering
 - Familiarity with proper shop safety practices
- This position will be based in Newfoundland, Canada.

Why come work at Kraken Robotics...

Want to apply your skills, knowledge and expertise to push the boundaries of underwater intelligence – which help governments defend and make our oceans safe, or ensure critical offshore energy and communications infrastructure is installed and maintained efficiently? If innovation drives you, and you want a career that makes a difference, helping humanity overcome the challenges in our oceans – safely, efficiently, and sustainably – then come join us at Kraken Robotics.

Kraken Robotics offers a unique career opportunity to work with an internationally recognized leader in ocean technology that is harnessing our world class talent to provide superior subsea solutions for global security, environmental, and scientific challenges. Our highly talented team design and manufacture technology platforms for NATO navies and commercial clients throughout the world and provide acoustic 3D Synthetic Aperture Sonar (SAS) data solutions and imaging in the offshore energy sector with increasing focus on offshore renewables.

Kraken offers an attractive and competitive compensation package designed to reward our team for a job well done. With locations around the world, we support remote working packages and encourage professional and cultural collaborations. Kraken is an equal opportunity employer focused on promoting diversity, equity, and inclusion and we value the diversity of our team that contributes to our company growth and development.
